Colorado Wildlife/Environmental Groups:

As an organization concerned with Colorado's wildlife, I would like to invite you to a meeting to update the status of some of the issues which impact wildlife at the Rocky Mountain Arsenal.

Jeff Edson, Project Manager for the Rocky Mountain Arsenal, would like to brief you on the new Ecological Risk Characterization which the Army has recently released for comment, as well as give you an update on the status of incineration of Basin F liquid, and the prognosis for the cleanup of the Arsenal and the conversion of its remediated areas to an Urban Wildlife Refuge. We are most interested in your input on these issues. Please feel free to bring along other members of your organization.

EPA Region VIII has been invited to present its view on the incineration project.

The meeting will be held Friday, January 8, at 9:00 a.m. in the Rachel Carson Room in the new offices of the Colorado Department of Health, 4300 Cherry Creek Drive South, Denver. That is three blocks south of Alameda, immediately east of Colorado Blvd. The Rachel Carson Room is on the first floor of the four story building.

Please call Claudette Ferris at 692-3380 to let her know how many people will be attending. I apologize for the short notice for this meeting. If you are interested in the subject matter and are unable to attend, please let Claudette know, and we will attempt to have an additional meeting at a later date.

Sincerely,

Marion M. Galant
Community Relations Manager
Hazardous Materials and
Waste Management Division
