

Brief notes on nesting birds from 27, 28, 29, 30, June 2011
incidental sightings & short visit to specialized habitats.

Seaside Sparrows at Mallard Slough had a very successful nesting season judging by visual observations with Binoculars & spotting Scope scans from dike roads. Population is still estimated by this observer as stable at about 400 pairs or more. Nesting area estimated still estimated at 3mi along Tahiti Bch road (N to S generally & 3mi to W to about old Rd 6 & N further along I, & J Bays, some of ~~that~~ Big Bayou and Sheeps head Bayou areas.

Hall-billed terns, Least Terns, & Black Skimmers are nesting nearby & feeding extensively at FLAG Pond, LAKE 4, & TAHITI BEACH ponds. AT LEAST 1 PAIR OF AMERICAN Oystercatchers fledged 2 young at TAHITI BEACH. THERE WERE NO OTHER TERNS or shorebirds nesting there except WILLET.

There are still about 12 heron juveniles being fed by adults at LAKE 5 but out of nests. The surrounding wild fire to heronery most likely delayed growth. Species included Great Egret, Snowy Egret, & Little Blue Heron. Purple Gallinules are still nesting at Lake 5 as well.

~~3~~ 3 Blue-winged Teal of both sexes were very late.

The general health of nesting birds seems to be very good. Regrowth of palms & grasses is astounding following June wild fire. 1-2 ft growth so far in grasses, palms, & palmetto as well as ~~the~~ blooms should benefit all wildlife on the island.

30 Jun 2011 Barbara H. Stedman

COUNT ON NESTING HERONS IN LAKES ROOKERY

By B H STEDMAN By Foot & KAYAK ENTIRE LAKE
5-10-2011 1700-1830

DENSE WILLOW GROWTH CONCEALS MANY NESTS.
WILLOWS GOES TO WATER LEVEL SO NO WAY TO GET UNDER NESTS
COUNT IS DONE BY BEST ESTIMATE OF NESTS & YOUNG SEEN
CALLS OF BOTH YOUNG & ADULTS OF EACH SPECIES
COMBINED WITH ADULT SPECIES & NUMBERS FLYING TO & FROM NESTS.

# OF NESTS	SPECIES	YOUNG STAGE (AGE) OF GROWTH
4	ANHINGA	usually 2 young per nest $\frac{1}{2}$ to $\frac{3}{4}$ grown
35	SNOWY EGRET	young seen in nests about 50% grown
30	GREAT EGRET	" " " " " " "
9	LITTLE BLUE HERON	" " " " " 35% "
6	TRICOLORED HERON	" " " " " " "
2	CATTLE EGRET	" " " " " 75% + 1 fledged
2	GREEN HERON. (NESTS IN WILLOWS ALL OVER ISLAND)	
1?	GLOSSY IBLIS - pair; territorial behavior SW area	PERCENT 5-14 ALSO
	LEAST BITTERN & SINGING LAKES. could NESTS THERE	
	AS WELL AS OTHER CATTAIL LOCATIONS	

11 GREAT BLUE HERON NESTS I Rd

5-14

- 1 BLACK-CROWNED NIGHT HERON AGGRESS CALLS AFT FLYING INTO CENTER OF WILLOWS & SEEING ME
- 1 PAIR OF PURPLE GALLINULE IN CENTER OF SAW GRASS/CATTAIL AREA 30 M N OF DIKE. CONTINUED AGGRESSIVE DISTRACTION WHILE I WAS NEARBY + 5/15 3RD. IN FLAG POND

5-13-2011 Seaside Sparrows. drove & stopped from GRd to J Rd on Tahiti Beh Rd. moved slowly very early AM for 2 hrs. NO WIND
start 71°. sparrows very active sitting up, foraging, & flying -
scanned most visible area from Rd with BINOC & Scope from Truck
63 seen. population appears same as when Seaside Sparrow
Study done some years back. Burn control of plot is responsible

Ethics for Birdwatching

Take care not to disturb nesting birds, exposing eggs and young to extreme temperatures and predation.

Disturb wintering wildlife as little as possible, particularly during critical feeding and resting periods. They need all of their energy reserves to withstand the stresses of harsh weather and migration.

Do not litter! Many birds die when they become entangled in fishing lines, six-pack rings and other trash, or when they mistake garbage for food.

Ethics for Birdwatching

Take care not to disturb nesting birds, exposing eggs and young to extreme temperatures and predation.

Disturb wintering wildlife as little as possible, particularly during critical feeding and resting periods. They need all of their energy reserves to withstand the stresses of harsh weather and migration.

Do not litter! Many birds die when they become entangled in fishing lines, six-pack rings and other trash, or when they mistake garbage for food.

Sighting Notes

Name of Observer: B H stedMAN

Species: _____

Number: _____

Location: _____

Habitat: _____

~~Distance to Bird(s):~~ _____

TOTAL OF birds SEEN at 14 mile
& STVI ISLAND on USFWS property

Date/Time Seen: May 9-16 2011

Weather: _____
