Subject Results of CBC

Hi Birders,

Here's the preliminary results for the Apalachicola CBC. The count went well with 139 count day birds and 3 additional count week birds. I am attaching an Excel file with the count data. These were quickly put together today and have not yet been reviewed. If you notice any mistakes in your data, let me know a.s.a.p. Every team had at least one bird that wasn't seen by any other team. I am attaching a Word file that shows all these birds and which team found them. I am also attaching a pdf file that has some photos I took of the Tropical/Couches Kingbird. Thanks for all of you who helped with the count this year. For those of you who were unable to help, I hope to see you next year.

Alan W. Knothe,
Education and Training Specialist,
Apalachicola National Estuarine Research Reserve,
(850) 653-2296
