B. Crowd Control Operations

1. Sheriff. The Juneau County Sheriff will be in command of all crowd control operations. He has the authority to protect federal property in Juneau County and he will respond and cooperate fully in taking over the situation. The sheriff will deputize refuge personnel so we will have proper authority and protection when acting on orders of the sheriff.
2. State Patrol. The Wisconsin State Patrol has authority to enforce laws only on federal, state, and county highways and motor vehicle registration. However, in an emergency, the State Patrol Commander can order troopers to assist the refuge. The State Patrol at Tomah, Wisconsin, will send men in if an emergency arises.

Authority can be given by the Governor for the State Patrol to protect areas outside their jurisdiction. State Statute 22.165 must be invoked and contact the Governor's office, 608/266-1212, to do this.

The State Patrol is very effective in patrolling state highways and can advise the sheriff or refuge of group movement toward the refuge. The State Patrol will assign all the men necessary and keep them patrolling adjacent highways until they might be needed on the refuge. Backup troopers will also be brought to neighboring towns if an emergency develops.
