Dear Dr. Jacobson:

Enclosed please find the results of this year's deer hunting season on Dahomey NWR including the two-day antlerless only hunt. Approximately 115-130 hunters participated on the first day and approximately 100-120 participated on the second day. The weather was good both days and many hunters reported seeing some nice bucks. However, although season length and hunting pressure has remained almost constant, the total harvest has again declined this year to 39 compared to 48 last year, and 152 the first year of refuge hunting. At your convenience, please call or write and let me know your thoughts on our program and future recommendations. Many thanks for your help.
