Doug Johnson  
RR 1, Box 96C  
Jamestown, ND 58402

Dear Mr. Johnson:

This letter authorizes Larry Igl and Chris Johnson to conduct population estimates of breeding birds on Audubon National Wildlife Refuge. This study is in conjunction with a study done in 1967 by Robert Stewart and Harold Kantrud titled "Population Estimates Of Breeding Birds In North Dakota".

Audubon Refuge will supply personnel, boat, and proper equipment to take Mr. Igl and Mr. Johnson to the survey site located in NE1/4 Sec. 30, T148N, R82W, McLean County, North Dakota, as shown on attached map. In return the above persons will supply Audubon Refuge of their findings.

This survey will be conducted in 1992 and 1993 during May and July of each year. The above persons will contact Refuge Biologist Craig Hultberg a week in advance so arrangements with Refuge staff and boat can be set up.

Thank you for your cooperation.

*Craig Hultberg*
