The Signatories to the Multi-Species Candidate Conservation Agreement with Assurances (MSCCAA or Agreement) hereby agree to the following changes to Section 11 (Funding), page 79 of the Agreement:

Threemile Canyon Farms has committed to fund a portion of TNC's management activities within the Farm Conservation Areas up to a maximum of $130,000 annually. Accordingly, TNC's actual costs will determine the specific level of annual funding up to the maximum $130,000 (indexed for inflation), and will continue until an endowment is in place to meet annual funding needs. Under this scenario, TNC will continue to bill the Farm for actual costs up to a maximum of $130,000 (indexed for inflation). Alternatively, the Farm committed to fund up to a maximum of $2,500,000 (dependent upon the sale price) for the endowment from the proceeds of the sale of the Conservation Areas for long-term funding security. TNC anticipates leveraging the funds from the Farm to secure additional funding for the project (approximately $20,000 to $40,000 per year through Federal and state grants and contracts).

The minimum amount that TNC has estimated for maintaining current conditions within the Farm Conservation Areas (barring a large scale fire of more than 300 acres) is at least $50,000 in start-up funding and approximately $165,000 per year. These funds will be used to satisfy the obligations within this Agreement and the Conservation Commitments on the Farm Conservation Areas.

Threemile Canyon Farms and TNC anticipates leveraging the funds from the Farm to secure additional funding for the project (approximately $20,000 to $40,000 per year through Federal and state grants and contracts), and will continue to work together to identify additional long-term funding sources. Grant funds may become available through Federal funding programs, such as the USFWS Grants Program, administered by USFWS. Threemile Canyon Farms and TNC will apply to USFWS for funding of the MSCCAA through this program.
Rationale for the change: The Signatories acknowledge and agree that the above changes to the Agreement are necessary based on historical experience and to avoid confusion in the public. The Signatories believe that the previous language does not accurately reflect the actual costs and experience of undertaking conservation activities within the Farm's Conservation Areas based on the last three years of implementation. The Signatories wish to clarify that, although TNC has in the past provided additional funding for conservation activities, TNC has no obligation to provide funding to meet the conservation obligations of the MSCCAA. The parties will continue to work closely together to ensure the implementation of their respective conservation commitments within the Conservation Areas.

Portland General Electric Company – Boardman Plant

Legal Description
KNOW ALL MEN BY THESE PRESENTS, that the State of Oregon, acting by and through its Director of Veterans' Affairs, Grantor, for and in consideration of the payment of $1,027,060 plus one percent thereof for each month after April 30, 1975 until delivery or recordation of this deed being the true and actual consideration paid for this transfer, receipt of which is hereby acknowledged, hereby grants, bargains, sells and conveys unto Portland General Electric Company, a Corporation of Oregon, Grantee, three parcels of land in Morrow County, Oregon, totaling about 3,520 acres and certain easements described as follows:

Sections 26, 34 and 35, T3N, R24E, WM, and Section 5 and the West half of Section 4, the NE ¼ of Section 10, the SE ¼ of Section 3, the SW ¼ of Section 2 and the NW ¼ of Section 11, T2N, R24E, WM, Morrow County, Oregon, together with easements for (A) a pumping plant and buried pipeline, (B) reservoir flowage and related dams, (C) nuclear exclusion area, (D) dewatering overflow, (E) transmission lines, (F) railroad, (G) roadway, and (H) a barge basin, all as described in Easements A through H attached hereto.

TO HAVE AND TO HOLD unto the said grantee Portland General Electric Company, its successors and assigns forever, such title as Grantor holds and subject to agreements herein contained; save and except as set forth in Exhibit I attached hereto and by this reference made a part hereof, the grantor excepts and reserves to itself, its successors and assigns, all minerals, as defined in ORS 273.775(1), and including soil, clay, stone, sand and gravel and all geothermal resources, as defined in ORS 273.775(2), together with the right to make such use of the surface as may be reasonably necessary for
prospecting for, exploring for, mining, extracting, reinjecting, storing, drilling for and removing such minerals and geothermal resources; provided, however, that the rights hereby reserved to use the surface for any of the above activities shall be subordinate to that use of the surface of the premises deeded herein, or any part thereof, being made by the owner thereof on the date the State of Oregon leases its reserved minerals or geothermal resources; in the event such use of the premises by a surface rights owner should be damaged by one or more of the activities described above then such owner shall be entitled to compensation for such damages.

The grantee agrees to hold the grantor harmless and assumes liability for providing liability insurance on all property contained in Easement (C) herein as required in that certain deed dated December 12, 1963, between the United States of America and the State of Oregon recorded in Morrow County records in Book 70 Pages 91 through 94.

The grantee also agrees to hold the grantor harmless and to defend the grantor against all loss, cost and liability arising from or connected with the use of the land and rights in land herein conveyed, by the grantee and those holding under the grantee.

All easements (which term shall be deemed to include without limitation water storage and usage rights) which are granted to the Boeing Agri-Industrial Company or its successors, are to run with the land and shall not be terminated by reason of a transfer of ownership or termination, cancellation or expiration of a leasehold interest.
All easements (which term shall be deemed to include without limitation water storage and usage rights) which are granted to the Dacing Agri-Industrial Company or its successors, are to run with the land and shall not be terminated by reason of a transfer of ownership or termination, cancellation or expiration of a leasehold interest.

IN WITNESS WHEREOF, the State of Oregon, by and through its State Director of Veterans' Affairs, has caused his seal to be affixed hereto and these presents to be executed on this 24th day of July, 1975.

STATE OF OREGON, by and through its
STATE DIRECTOR OF VETERANS' AFFAIRS

STATE OF OREGON ss.
County of Marion ss.

On this 24th day of July, 1975, before me, a notary public in and for said county and state, personally appeared the within-named H. C. Dagleish, to me known to be the [Redacted] Director of Veterans' Affairs of the State of Oregon, who being first duly sworn did say that he executed the foregoing instrument on behalf of the STATE OF OREGON and by authority of his office; and said H. C. Dagleish acknowledged the execution of said instrument to be the true act and deed of said State of Oregon.

IN TESTIMONY WHEREOF I have hereunto set my hand and affixed my official seal, the date in this my certificate above written.

Attention:  Mr. L. E. Hodel
Assistant Vice President

Gentlemen:

PGE Sublease

Boeing Agri-Industrial Company ("BAIC") hereby subleases to you approximately 200 acres of land in the southerly portion of Section 33, T3N, R24E, W.M., as shown on Exhibit A-1 for a term commencing as of July 1, 1979, and ending contemporaneously with the expiration or sooner termination of BAIC's lease dated July 2, 1963 from the State of Oregon, Department of Veterans' Affairs. You may cancel this Sublease as of July 1 of any year by written notice to BAIC at least 180 days prior to the cancellation date. Rent shall be paid annually in advance on July 1. The initial annual rent shall be $1.50 per acre and shall be adjusted each year commencing July 1, 1981, as provided in Exhibit B.

You agree to do the following at your sole cost and expense with respect to the subleased acreage:

(a) Install in two phases, operate and maintain a collection and return system for water seeping out of Carty Reservoir into Sixmile Canyon, and

(b) Install and maintain a fence enclosing the subleased acreage adequate to exclude livestock.

You will collect and return water seeping out of Carty Reservoir into Sixmile Canyon to the reservoir at your sole cost and expense. Rights in seepage water collected and returned to Carty Reservoir shall be determined by and under the Agreement between the parties dated May 29, 1975 ("the Water Agreement"). Seepage water not returned to Carty Reservoir, if any, shall be subject to appropriation by BAIC.
You hereby grant BAIC the use and possession of approximately 580 acres of the "Plant Site" in Section 5, T2N, R24E, W.M., as shown on Exhibit A-2 pursuant to the terms and conditions of paragraph (1)F. of the Water Agreement. The initial annual rent shall be $1.50 per acre and shall be adjusted each year commencing July 1, 1981, as provided in Exhibit B.

This revocable permit does not apply to the area within 100 feet of the toe of the West Dam of Carty Reservoir. The estimated term is three years subject to cancellation as provided in paragraph (1)F. of the Water Agreement. You are not responsible for loss of crops arising from cancellation.

BAIC will grant a license to SimTag Farms to use the acreage for agricultural purposes. Future irrigation circles will not be placed in such a manner so as to interfere with the existing West Dam access road or closer to your Meteorological Tower than the 400-foot distance established October 9, 1978. BAIC or SimTag Farms will be responsible for relocation of equipment for electrical service to your Meteorological Tower affected by their activities.

You reserve the right of access to your Meteorological Tower either on existing access roads or by extension of a road from the south end of the West Dam of Carty Reservoir.

**General**

The provisions of paragraph (15)A. of the Water Agreement shall be applicable to use under the PGE Sublease and BAIC Use and Possession.

Please sign and return one counterpart of this letter for our records.

Very truly yours,
